CAREER HIGHLIGHTS

GOOGLE   04/12 - PRESENT

FRONT-END WEB DEVELOPER

Liaising closely with internal design and development teams, I was responsible for the front-end web development of exciting new web projects within the R&D / Inspiration team.

Technologies used:

HTML5/CSS3 | UI | WIREFRAMES | JAVASCRIPT | D3 | ANGULAR.JS

MICROSOFT   01/09 – 03/12

WEB DEVELOPER

Working on the website for MSN Messenger within a team of 5 I produced mock-ups and prototypes optimised towards goal generation "user sign-ups". After split testing sites I hand coded front and back end semantic code.

Technologies used:

ASP.NET | C# | HTML5/CSS3 | UI | WIREFRAMES | JAVASCRIPT | SQL

APPLE   11/06 – 12/08

JUNIOR WEB DEVELOPER

After graduating I was selected from over 2000 applications to join Apple's prestigious graduate training programme. Working within the product release team I supported the marketing teams in producing landing zones and marketing related collateral.

Technologies used:

HTML/CSS | JAVASCRIPT | PHOTOSHOP | MAILCHIMP | MS OFFICE | MARKETING | LZs

YAHOO!   08/06 – 10/06

INTERNSHIP

As part of my Computer Science degree I was took up a 4 month technical internship with Yahoo! It taught me about development lifecycles, processes, technologies and how programming works within a commercial environment.

Technologies used:

HTML/CSS | PHOTOSHOP

ONE LAST THING…

I would love <u>to talk to you</u> about your opportunity, I am free to talk immediately and interview within a few days. If you require references or URL's of my work please just give me a shout and I'll send them over right away :)
